

General presentation

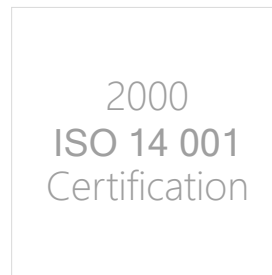

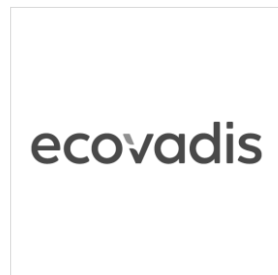

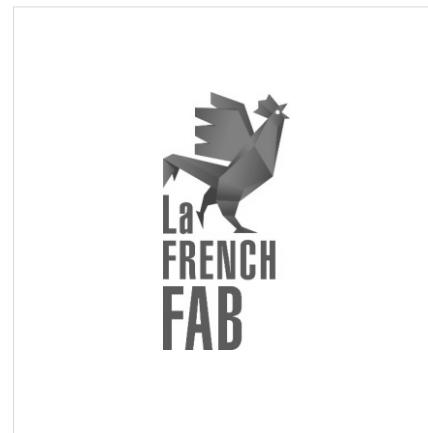

09/01/2020

Since 1980 Polytechs is a recognized polymer compound & masterbatch producer

We deliver advanced solutions servicing the whole
polymer value chain

PARTNERS, AFFILIATES AND CERTIFICATIONS

TIMELINE

1980

Foundation

Creation of Polytechs -
Cany-Barville, Upper
Normandy - France

1998

New technology

100% compacted, Non-
dusting, Additives
Blends

2009

New Shareholders

Mr. Coquelet & Mr.
Dugats become the
new Shareholders

2011

First investment

First investment plan is
launched - 2 twin
screws & 1 co-kneader

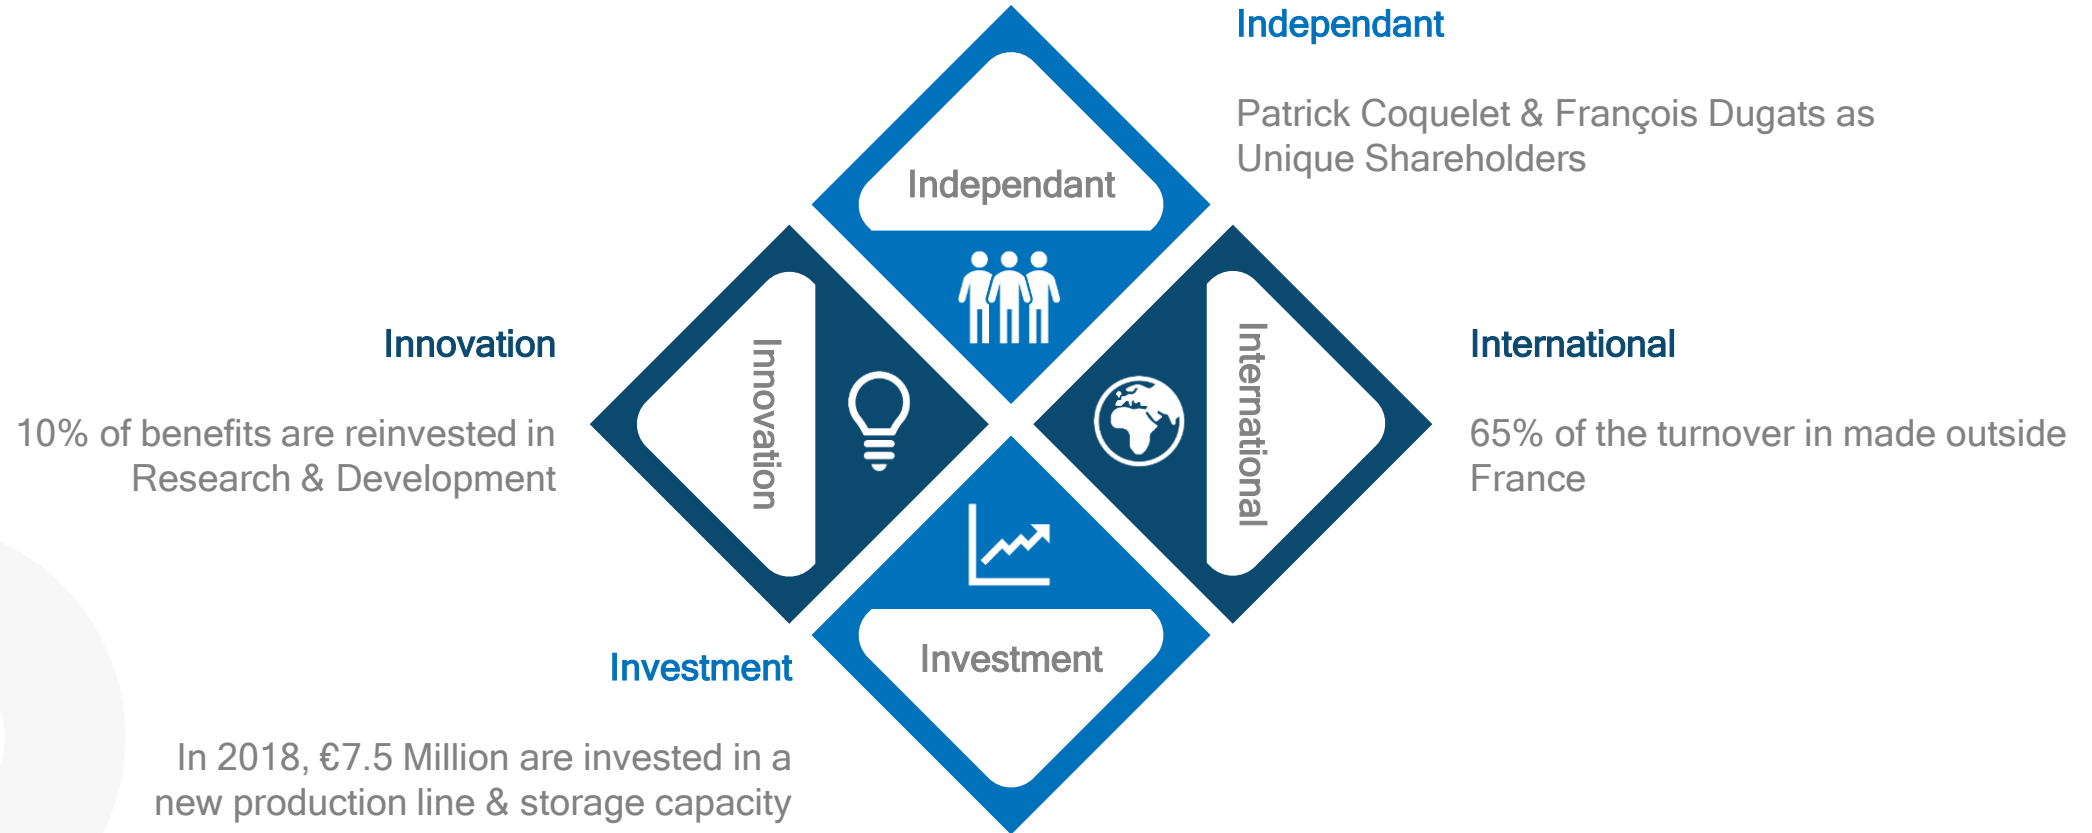

2019

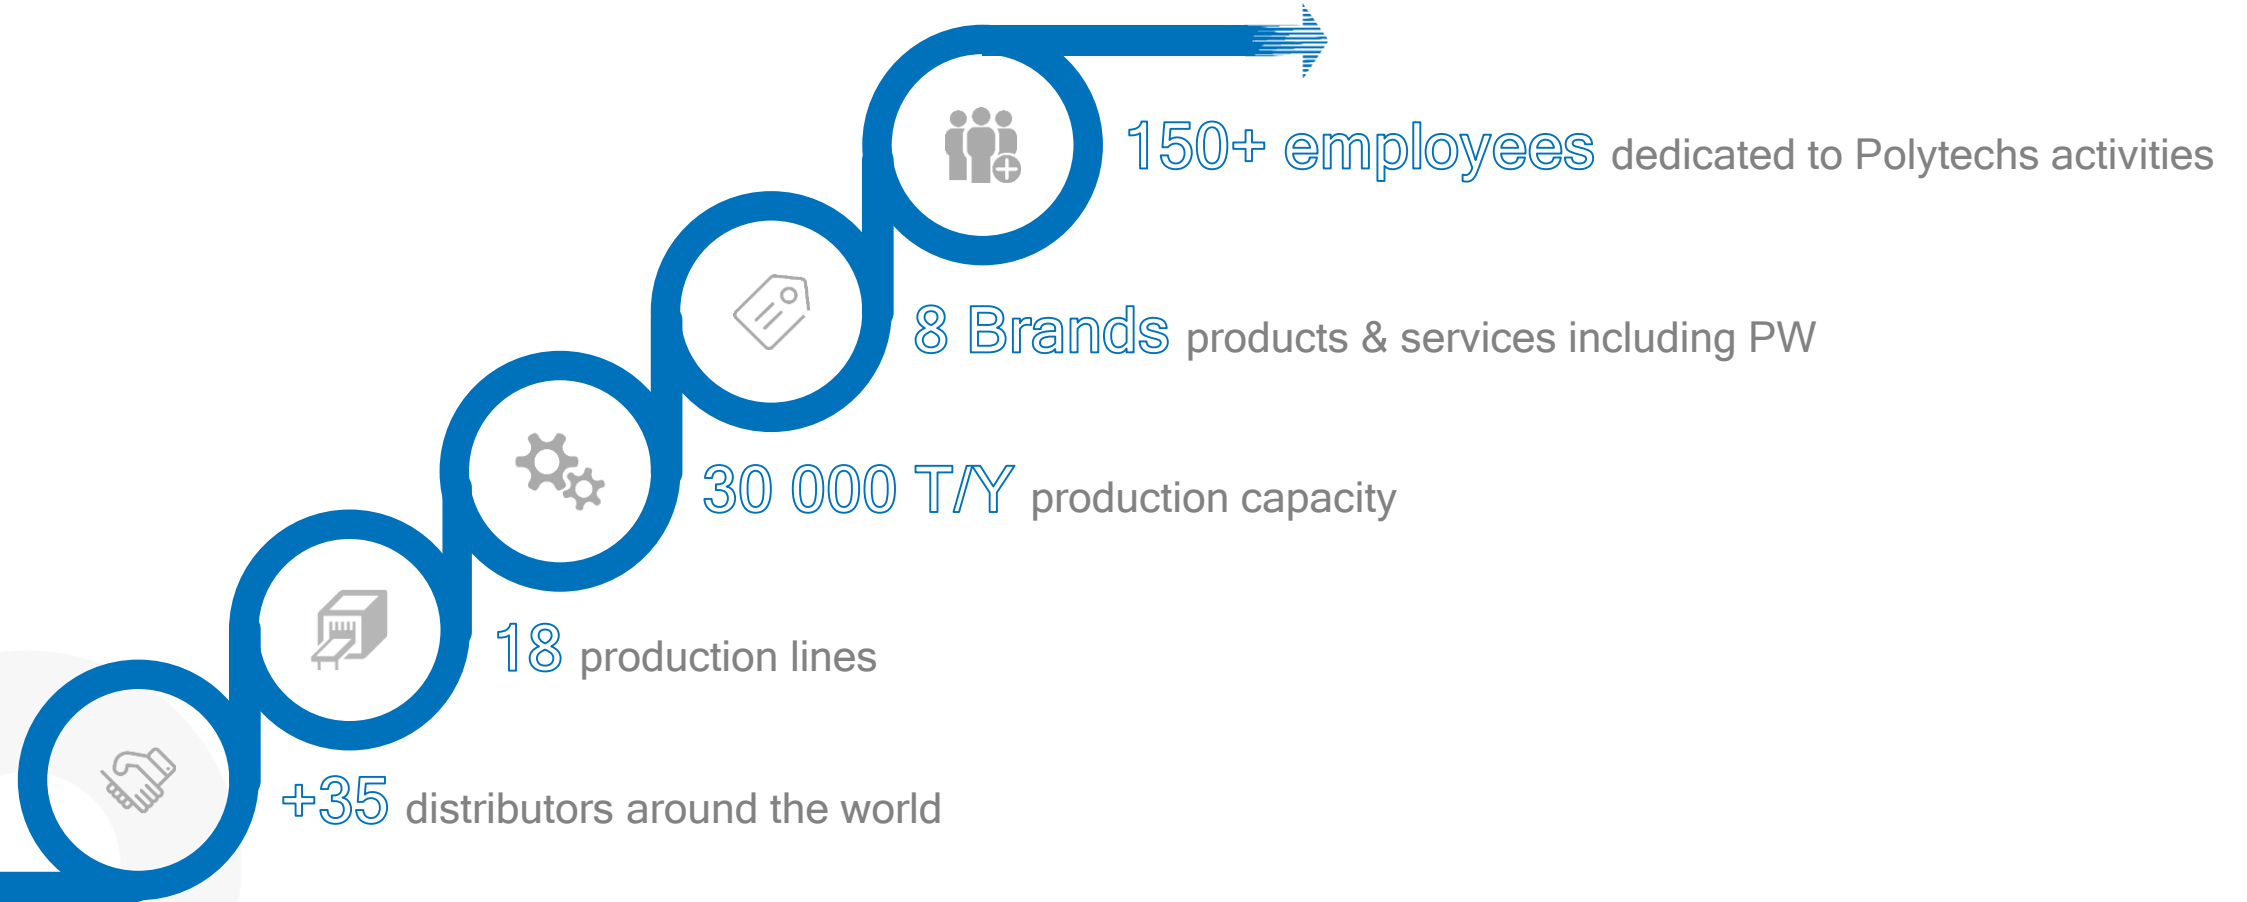

Second investment

New twin screw line;
Storage Capacity
increase; Adoption of
digital solutions; New
brand strategy

THE 4i MODEL

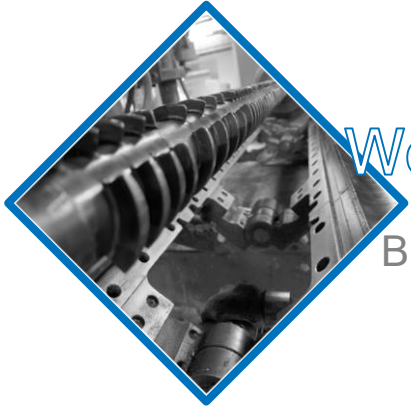

KEY FACTS

A WORLDWIDE PRESENCE

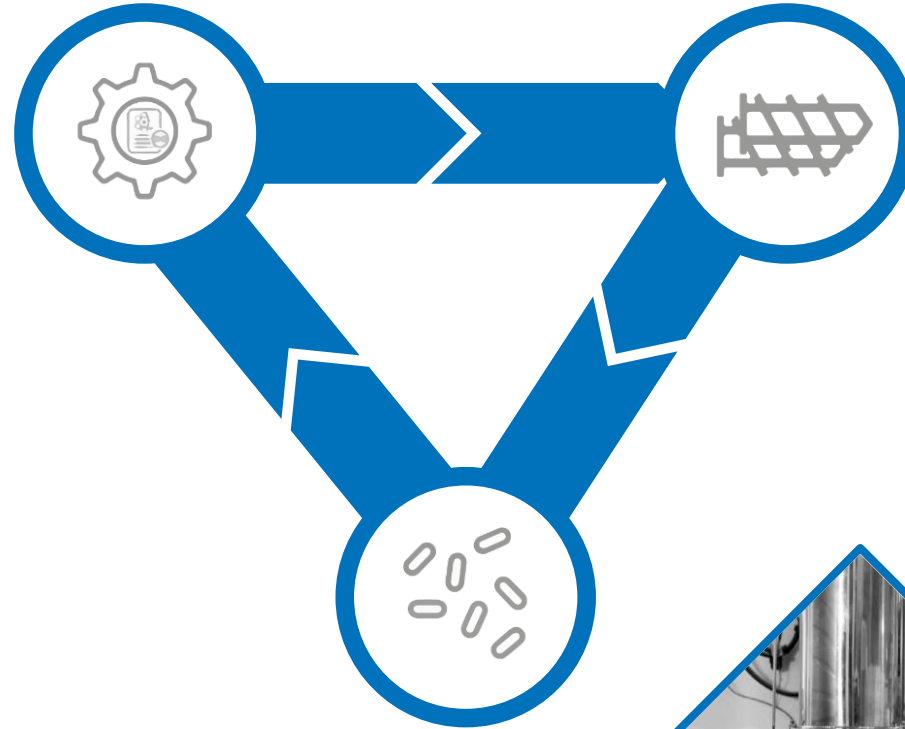

BROAD & FLEXIBLE INDUSTRIAL TOOL

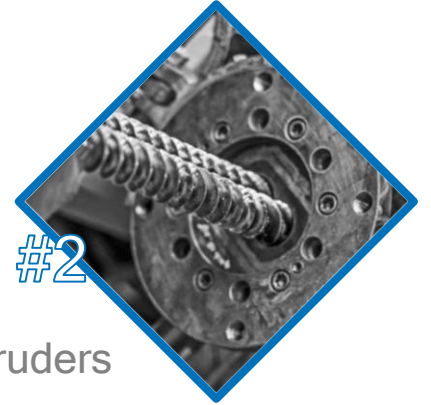

Workshop #1

Buss co-kneaders

Workshop #2

Twin screw extruders

Workshop #3

Compaction / 100% non-dusting
additive blends

2 CORE ACTIVITIES

- Co-kneading and twin screws extrusion facilities
- 100% non dusting additives blends
as toll compounding solutions for the polymer value chain

Specialty masterbatches
and compounds
**for surface modification, productivity, lightweighting
and 3D printing**

POLYTECHS PRODUCTS - Specialty masterbatches and compounds

Surface modification

Cling Masterbatches
(PW60 ; PW70 ; PWS)

Antiblock Masterbatches (Natural & Synthetic Silica, Talc)

Antifog Masterbatches (including Cold & Frozen Fog)

Food Shelf Life Extension Masterbatches

Productivity

Purging Compounds for extrusion & injection molding

Processing Aids Masterbatches (for PE blown & Cast and High T° ; For PP)

PP Viscosity Modification Masterbatches

Lightweighting

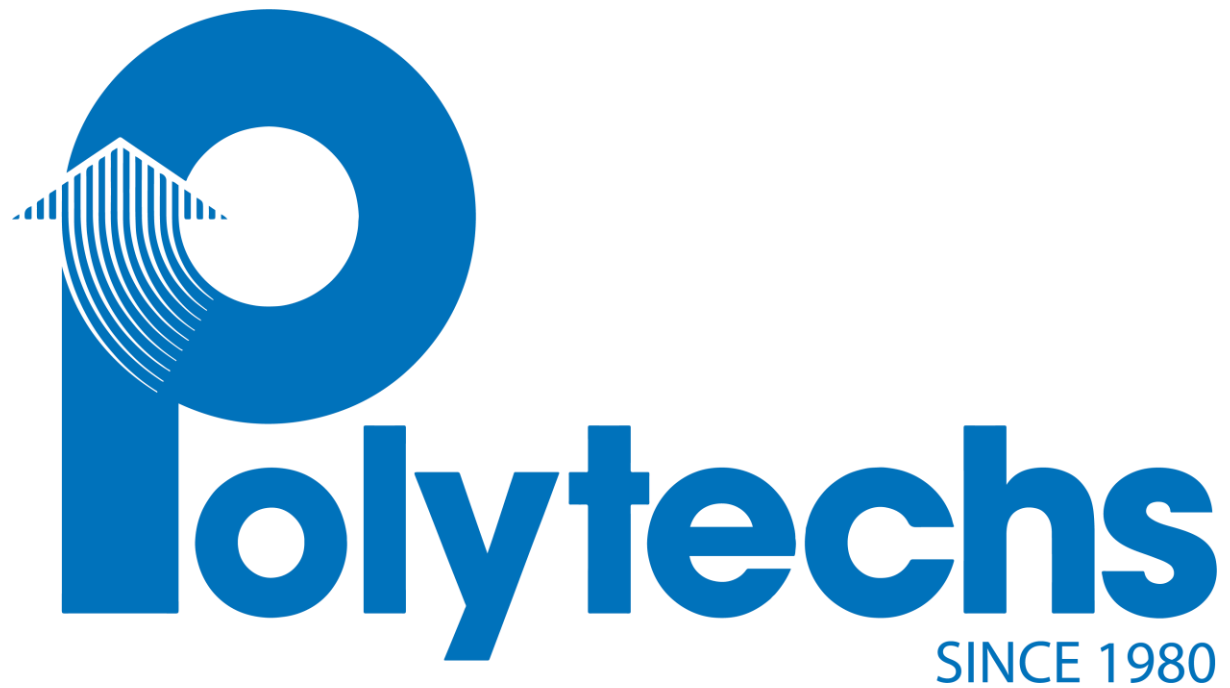

Blowing agents in masterbatch (ADCA & Non-ADCA)

3D Printing

Reinforced Polyolefin Compound for 3D Printing application (Tooling parts)
